Versie: 9-1-2020

This list was compiled by Nina Uit 't Broek during her traineeship in 2019-2020. Final redaction by Bart Jaski. A first list of books in the Van Hamel collection which were suitable for digitisation was compiled by Marloes Koelewijn and Nina Vogels during their traineeship in 2018, and was further refined by several employees of the University Library of Utrecht. The digitisation of the 98 titles was completed in 2019.

The list is presented in the order of the original shelfmarks of the Van Hamel collection. Current shelfmarks, if they differ from the original ones, are given below the original shelfmark. Particularities such as annotations are also noted.
